PROFILE

IT student and AI enthusiast with hands-on experience in building practical software solutions. Through academic competitions and team projects, I have developed a strong foundation in Python, NLP, and system design. I bring strong problem-solving skills, international certifications from ASU, and a genuine desire to apply my coding abilities to create positive societal impact. Always ready to learn and adapt in a fast-paced environment.

WORK EXPERIENCE

Core AI Developer & Researcher ADLEY Team | 11/2025-06/2026

- Collaborate within a high-performing tech team to research, architect, and develop innovative software solutions for academic and societal challenges.
- Lead the research and implementation of Artificial Intelligence and Natural Language Processing (NLP) features for project integrations.
- Participate in full-cycle project development (from ideation and system design to coding and pitching) under strict deadlines for major tech competitions (Hackathons, IC Projects).
- Proactively learn and adopt new technologies (such as interactive mapping and data analysis) to optimize project performance and user experience.

PROJECTS & ACHIEVEMENTS

- **Sac Viet – Solving 17 ASEAN Issues (sacviet.vercel.app) ADLEY Team | Second Prize - IT Faculty Competition**
- **Smart Virtual Assistant ADLEY Team | Second Prize - IT Faculty Hackathon**

Professional Certifications

- What is Innovation?
- ASU VentureX - Startup
- Foundations for Excellence in Online Teaching

SKILL

Technical Skills

- Machine Learning & AI
- Data Structures & Algorithms
- Natural Language Processing (NLP)
- System Analysis & Design
- Git / GitHub
- Prompt Engineering

Languages & Tools

- Python
- C / C++
- JavaScript / HTML / CSS
- SQL / Database Management
- React / Next.js

EDUCATION

Bachelor of Information Technology
